## SUMMARY

Information Systems student at Universitas Bina Bangsa with experience in cybersecurity internship, technology organizations, and digital skill training. Skilled in basic web development, data processing, and software development concepts. Active in organizational activities that develop teamwork, communication, and leadership skills. A fast learner who enjoys building digital solutions and currently seeking opportunities to grow as a Full Stack Developer.

## EXPERIENCE

### PT Analisis Keamanan Siber – Indonesia

Feb 2025 – Jun 2025

Junior Cybersecurity Engineer Intern (MSIB Program)

- Learned and applied cybersecurity principles and tools to analyze system security risks during internship program.
- Assisted in monitoring and analyzing potential security threats in simulated environments.
- Completed cybersecurity training modules and practical labs to strengthen understanding of digital security systems.

## PROJECTS

### Hotel Booking Web Application (Group Project) – JavaScript

- Developed hotel booking web application as part of team project using JavaScript.
- Implemented hotel listing and booking features to simulate reservation process.
- Collaborated with team members to design user interface and application flow.

### Student Final Project Monitoring System (Collaborate) – Flutter

- Developed application to monitor student final projects including supervisor chat and revision tracking.
- Implemented communication features between students and supervisors.
- Built mobile-friendly interface to improve academic monitoring process.

### Simple To-Do List Web Application – HTML, CSS, JavaScript

- Developed task management web application with add, edit, and delete task functionality.
- Implemented dynamic task updates using JavaScript.
- Designed responsive interface to improve usability across devices.

## ORGANIZATIONAL EXPERIENCE

### HIMASI Universitas Bina Bangsa – Cadre Development Division (Kaderisasi)

2023 - Present

- Organized cadre development programs for Information Systems students.
- Assisted member regeneration and leadership training activities.
- Supported planning and execution of internal organizational events.

### Student English Forum Universitas Bina Bangsa – Active Member

- Participated in English discussion, reading, and speaking training sessions.
- Supported promotional and communication activities within the organization.

## EDUCATION

### Universitas Bina Bangsa - Serang, Indonesia (Bachelor's Degree in Information Systems)

2023 - Present

## COURSE, TRAINING, AND CERTIFICATION

Completed Full Stack Developer Bootcamp at Harisenin.com (2026–Present). Completed Introduction to Software Engineering and Introduction to Data Analytics courses by RevoU (2025). Earned English Communication Training certification from LPKSI Banten (2024).
